### **ALLERGENS ON OUR MENU**

For those who have an allergic reaction to specific ingredients in food, even a trace of it being present can be extremely dangerous. A European Directive has identified fourteen allergens that must be identified in every dish. Many of the fourteen allergens are present in our kitchens in some items, and in the normal operation of our business we cannot guarantee product separation and no cross-contamination of traces of these allergens. There is a risk that items in your dish may have accidentally come into contact with an allergen at any point in time. When you arrive please inform us if you have a food allergy before you order. We will assist you making your menu choice, and will take all reasonable steps to minimise the risk of cross-contamination during the preparation of your meal.
